EDUARDO GONZÁLEZ SECO

FULL-STACK DEVELOPER

PROFILE

Full-stack developer with experience in Angular, Node.js, and databases (MySQL, MongoDB). Passionate about technology, I am specializing in cloud development and currently pursuing the AWS Developer certification. I aim to contribute to innovative projects, delivering scalable and efficient solutions. Living in London for 9 years provided me with a strong command of English and the ability to work in international environments.

WORK EXPERIENCE

Full-stack developer

SCL Consulting - Madrid   Mar. 2023 - Dec. 2023

- **Accelerated application development** by 20% through the creation of RESTful APIs using Node.js - Nest.js and MySQL, optimizing the monitoring of SAP data.
- **Developed user interfaces** with Angular +15, TypeScript, Angular Material, and reactive programming (RxJS), ensuring seamless integration with server APIs.
- **Implemented scalable and maintainable solutions**, following SOLID and CLEAN principles, utilizing Agile methodologies to optimize development processes.
