EDUARDO GONZÁLEZ SECO
Full Stack Developer

**Madrid, España | +34 689262614 | eddugonz@gmail.com | Linkedin |
www.egonzalezdev.com | GitHub**

PROFESSIONAL PROFILE

Full Stack Developer with experience in **Angular**, **Node.js**, **RESTful APIs**, and databases (**MySQL**, **MongoDB**). Specializing in **AWS** for scalable architectures (**microservices**) and **DevOps (CI/CD)**, currently pursuing **AWS Developer Associate** certification. Fluent in **English (C1)** with experience in multicultural teams (9 years in the UK), combining technical expertise and effective communication to drive global projects.

EXPERIENCE

Freelance Full Stack Developer | Madrid, Spain | Remote
December 2023 – Present | **www.egonzalezdev.com**

Designed, **developed**, and **deployed** scalable full-stack applications, optimizing performance. Currently deepening knowledge in microservices architectures and CI/CD (DevOps) implementation.
Key projects:

- *ScreenPulse* – Angular | Node | MongoDB [Demo] | [Front app repository] | [Backend Api Repository]
    - Full-stack multimedia management platform, deployed on Firebase and Render
- *Task Manager App* – Angular | Ionic| [Repository]
    - Mobile application built with Ionic-Angular featuring offline storage

Full Stack Developer | Madrid, Spain | Hybrid
March 2023 – January 2024 | **Timestamp España**

- Accelerated application development by 20% using **RESTful APIs** with **Node.js** and **NestJS**
- Developed **interfaces** with **Angular** +15, TypeScript, and RxJS, ensuring seamless **API integration**
- Implemented **scalable** and **maintainable solutions** following SOLID and CLEAN principles
